**C**                      **F**              **G**  
Face to the ground I bow down low,  
**C**                      **F**              **G**  
Knees to the floor be - fore Your throne.  
                         **F**              **G**  
Who can stand in Your presence?  
                         **F**              **G**  
Who can gaze on Your glory?

**C**                      **F**              **G**  
Guarding my steps I come to You;  
                         **C**                      **F**              **G**  
The path that I tread is holy ground.  
                         **F**              **G**  
Who can come and worship  
                         **F**              **G**  
Without fear and reverance
